DISPATCH

ATTACHMENT 90 - UFGW 011 dated 6 Feb. 62

SUBJECT: Crew Member, TEJANA
Lawrence LADONER

1. On 29 September 1961, Mr. Charles V. PIERCE was debriefed upon his return from HX at the YIM area and his subsequent return to the Office of Logistics. Mr. PIERCE advised of the following incident that occurred during his travel from YIM to Washington while in Key West.
2. The chief engineer of the motor vessel TEJANA, first name Larry Lou, happened to meet PIERCE in a small restaurant at lunch time when PIERCE was in Key West. Larry recognized PIERCE and proceeded to tell him that he, Larry, knew where PIERCE had been and what he had been doing. He further went on to state in an indiscrete manner that he knew where all of "you" people were at all times. Mr. PIERCE did not pursue the situation further and attempted to exit gracefully. He stated that this is not the first time that Larry has been indiscrete in his discussion of Project activities. From previous contact with Larry, Mr. PIERCE has charged him to be addicted to alcohol, of unsavory reputation, and indiscrete in his conversation; however, this individual is the only engineer aboard the TEJANA that can operate the vessel. In difficulties with the operation of the TEJANA due primarily of Larry's being an American citizen, Larry has stated in effect that he does not care who gives orders. He will go on operations if he so desires. At various times he has further berated the Agency.
3. This matter is brought to your attention for possible action on your part.
